CANNON SCORES THE INSURGENTS

Places Them in Same Category With Bryan.

HALT IN ERA OF PROSPERITY

Uncle Joe" Declares That Agitation for the Mere Purpose of Agitation is the Only Thing That Will Cause It—Says Tariff Bill is the Result of Compromise—Did Not Read Cummins Out of Party.

Kansas City, Nov. 27.—"When Senators Cummins, La Follette, Bristow and their so called 'progressive' following join hands with Mr. Bryan in making war upon the Republican members of congress who passed the tariff bill and upon the president who signed it in that contest I know of but one way to treat them and that is to fight them just as we fight Mr. Bryan and his following."

Such was the declaration of Speaker Cannon, who delivered the principal address before the Knife and Fork club here, of which the following is part:

"Now, gentlemen, there is only one thing that can halt this confident move forward to give the country another era of prosperity, such as we had from 1897 to 1907, and that is agitation for the mere purpose of agitation, without any well conceived, healthy purpose in view.

"The senators and representatives who call themselves 'insurgents' and who voted against the enactment of the Payne bill, voted to increase or maintain the duties on the industries and products of their own states and sections. They were protectionists for their own people, but they were opposed to protection for other people in other sections.

"In other words, these gentlemen who call themselves 'insurgents' voted with the Republicans on schedules that protected the products of their constituents and with the Democrats on schedules that protected the products of other sections of the country. It was their right, but when they voted with the Democrats against the enactment of the bill they voted to maintain the old schedules of the tariff law and were not supporting the pledge of the Republican platform to the pledges made by President Taft.

All Accepted Compromises.

"There was not one member of the publican majority who secured in the bill as enacted all that he had intended for. President Taft, Senator Aldrich and myself all accepted compromises that the so called 'insurgents' were asked to accept. In no case did we want free lumber and our constituents wanted a duty on lumber because they have the largest independent oil producing district in the world. We were beaten, we did not make our own interests the only interpretation of the publican pledge to revise the tariff. Senator Cummins complains that he has read him out of the Republican party. Other sensitive gentlemen made the same complaint against President Taft. The senator does me much honor. I have not the authority to read any man out, nor have I the disposition. I think I may say the same for the president. I have been a member of the Republican party since it was organized and I have never known of any man or group of men being read out of any party except by themselves."

He defended the rules of the house, saying they will remain substantially

as they have been and are so long there is a congress.

Mr. Cannon asserted that, while the Payne tariff law is not perfect, it is the best one ever passed under Republican leadership; that, since the enactment of the new law, production in this country and imports from foreign countries have greatly increased and day by day conditions are improving. The "insurgents" and their followers, he said, are seeking to hinder the progress of prosperity by criticism and denunciation and this, too, within three months of the enactment of the tariff law. Only such agitation can halt the prospective era of prosperity, said the speaker.

Continuing, Mr. Cannon said: "I am perfectly willing to trust the verdict of a prosperous and happy people in the elections in November, 1910, after the new tariff law has been in operation for over a year."

Boy Shoots His Father.

Laurens, S. D., Nov. 27.—In defense of his mother and other members of the family John Irby Fuller, eighteen years old, shot and killed his father, Jesse V. Fuller, at the Fuller home, six miles east of this city. The elder Fuller had, it is asserted, assaulted his wife and, pistol in hand, was threatening to shoot her.

Youth Commits Suicide.

Des Moines, Nov. 27.—Within an hour after he had been refused permission to attend the Drake-Ames football game Harold Perkins, a sixteen-year-old junior in the West high school, son of Seth A. Perkins, committed suicide by hanging himself from a door in his bedroom.

REVISION OF THE TARIFF

Congressman Stevens Believes Coming Congress May Attempt It.

St. Paul, Nov. 26.—That the approaching session of congress, which convenes on Dec. 6, will come face to face with the imperative necessity of revising the Payne-Aldrich tariff bill, and this in spite of the statements of President Taft, Speaker Cannon and other leaders that there must be no "tariff tinkering" for a long time to come, is the belief of Representative F. C. Stevens, who backs up his belief with some arguments which are likely to cause worry this winter to the "standpat" element in congress.

This necessity for certain changes in the present tariff law will come incidentally, according to Mr. Stevens, and as a corollary to the waterways question and not through a direct attack from the insurgents.

In discussing the matter Mr. Stevens pointed out that there has been no rivers and harbors bill for two years and that it will be three years by the time another can be passed. The present clamor for waterways improvement is going to make such a bill necessary and it may reasonably be expected that it will carry from \$50,000,000 to \$75,000,000.

This money must be provided either from current receipts or from bond issues or certificates of indebtedness, which are bond issues in effect. The waterways commission is opposed to any issue of bonds for improving waterways. Speaker Cannon has also expressed himself as opposed to the proposition, all of which makes it practically certain that no issue will be made.

The money must come, therefore, from current receipts and funds on hand. Since the present tariff bill went into effect at the beginning of the fiscal year, July 1, there has been an excess of expenditures over receipts of almost \$30,000,000.

The Other Way With Him.

"Remember, sir, that you owe something to your constituents," said one member of a town council to another. "Humph!" said the other. "If you owe anything to your constituents all I've got to say is that you're lucky. Why, there are not half a dozen voters in my ward that have not borrowed money from me."—Stray Stories.

Pitfalls of Slang.

Host (in India)—Do you see that fanatic over there? He has sat on that corner and in that posture without moving for six months. Traveler (from America)—Gee, that's going some!—Chicago Tribune.

Free Timber From National Forest.

The forest service grants a large amount of timber free each year to bona fide settlers, miners and prospectors in the vicinity of the national forests in California for firewood, fencing, building, mining, prospecting and other domestic purposes.

Each such person may obtain \$20 worth of this material annually by applying to the nearest forest officer.—San Francisco Call.

DEAD BANK BANDIT IS IDENTIFIED

Anton Smith the Real Name of Minnesota Robber.

Bemidji, Minn., Nov. 27.—Anton Smith is the real name of "Jimmie" Smith, bank bandit, killed by the sheriff's waylaying posse at the Great Northern bridge, west of here. The coroner is making efforts to locate relatives, probably living near Clitheral, Minn.

The bandit who escaped in the fusillade has not yet been found by searching posse. A suspect was arrested at Wilton and brought here. He gave the name of George Gardner, and his actions have merited police attention. It is not yet believed, however, he is the second of the two bandits who robbed the bank at Puposky, Minn., of about \$200.

An investigation was made of the effects in the pockets of the dead robber and a shipping certificate was found, indicating that a mattress had been shipped from Henning, Minn., to Clitheral, Minn., early this month. This may be only the movement of an itinerant lumberman from one camp to another. The bill, however, was signed "Anton Smith," as receiver of the shipment.

President O. J. Laqua of the robbed bank was in Bemidji and said that this is the third time the bank has been robbed in the past two years, the safe having been blown open twice, and himself being held up at the point of a gun and forced to open the vault. He had not yet determined the exact amount stolen, but believes it near \$200.

The Puposky bank was robbed about midnight, the robbers escaping on a railroad speeder. The Bemidji police, being informed, waylaid the robbers at an overhead bridge, and in the early morning fog succeeded in killing one of them. Deputy Sheriff Andrew Johnson was perhaps mortally wounded, although hopes for his recovery are being entertained now. He was shot through the lungs by a rifle. Policeman Benner of Bemidji shot the robber, Smith, through the head, instantly killing him. The other robber escaped in the darkness.

TRIES TO COMMIT SUICIDE

Alleged Bank Swindler Severs Artery in His Wrist.

Davenport, Ia., Nov. 27.—Harry O. West, alias H. N. Ordway, who was arrested in Chicago two weeks ago on the charge of being a leader of a band of bank swindlers, attempted to commit suicide in the Scott county jail by severing the artery of his left wrist with a tin tobacco box.

He was discovered a few minutes later unconscious from loss of blood. He was removed to the hospital, where he attempted to tear the bandages from his wounds.

West was arrested in Chicago under the name of Ordway. It is believed he is the same man who swindled a Des Moines bank out of \$500 on a telegram.

STATE TO START A NEW SUIT

Will Try to Recover Value of Timber From Lumber Company.

St. Paul, Nov. 27.—Attorney General George T. Simpson said that unless something unforeseen happens new proceedings will be started by the state to recover the value of 1,000,000 feet of timber which the Red Lake Falls Lumber company secured a few years ago by buying state school land at \$5 an acre as agricultural land. The department will act upon the suggestion of the supreme court in its decision Friday and start proceedings to have the sale of the land set aside.

The suit which the state started to recover treble damages for the value of the timber because, it was alleged, the company had committed willful trespass, was decided against the state by the court Friday. The court said it was not the proper proceeding.

The statute classifies state land into three classes, agricultural, mineral and timber. Timber cannot be sold by the auditor without the consent of the timber board, but he may order agricultural land sold at any time. The land in question was ordered sold by R. C. Dunn when he was state auditor as agricultural land, and was bought by E. W. Backus of Minneapolis. It was found to have 1,000,000 of timber and the state sued for trespass. The state won in the Clearwater county court, but the supreme court reversed the case. It suggested, however, the proper way to start the proceedings.

Clue to Girl Murderers.

Milwaukee, Nov. 27.—Through the statements to a priest the police hope to arrest the man or men who assaulted and murdered little Hattie Zinda in an abandoned office building near the Racine street bridge two weeks ago.

"MICHAEL'S"

ARCHBISHOP SCORES THE CRIMINAL RICH Declares Poor Are Not the Only Class of Criminals.

Madison, Wis., Nov. 27.—In a sermon at the dedication of the new St. Bernard's church and school, Archbishop Messmer of Milwaukee combated the oft-made charge that the so-called lower class breeds criminals.

"It always provokes me to hear about the ignorance of the poor, and to hear the lower classes put down as the only class of criminals," he said. "It is a lie. It is a foolish statement made by foolish people. If a study of the lives of the rich be made it will be found that greater crimes are committed by that class and there are greater tricks to prevent publicity."

The prelate noted the fact that he had instructed his diocese should note Thanksgiving with high mass, and he hoped all Catholics would join in the observance of the day.

In defending the parochial school as a producer of good citizens, he cited statistics showing the high scholarship averages made by children in Catholic schools in the larger cities.

HOMESTAKE MINE CLOSED

Company Heads Off the Threatened Strike.

Lead, S. D., Nov. 26.—By closing down its entire works without waiting for the threatened strike, the Homestake Mining company has again shown its determination to win the fight for the open shop policy into which it has entered with the Western Federation of Miners. Every preparation necessary for a long period of idleness has been made, while the federation is expected to take the same steps in providing for the union men during the lockout.

No attempt will be made by the company to keep the mine unwatered in the lower levels, while the upper levels will drain themselves.

This shut down also includes all the outside properties of the Homestake, such as the pump station at Hanna the works at Nemo, all the timber contracts with the government and the big power plant that is in course of construction in Spearfish canyon.

Will Shoot From a Monoplane.

Paris, Nov. 27.—A French sportsman has ordered a Bleriot monoplane for use in shooting. The hunter is enthusiastic over the idea of aerial shooting and made arrangements for an assistant who will operate the machine. The aeroplane will be steered about in the air among the rising birds, while the hunter plugs away at his quarry from a seat before the pilot.

Valuable Lumber Rafts Adrift.

Portland, Ore., Nov. 27.—Unable to withstand longer the strain of the ever swelling floods five log rafts swept down the Columbia river and crashed into a boom near Vancouver, Wash., setting adrift twenty-nine mammoth rafts containing from 10,000,000 to 12,000,000 feet of lumber. If the rafts are not recovered the loss will be \$125,000.

Family Connection a la Mode.

"Well, yes; we are related in a way." "By marriage?" "Yes. My first wife's third husband is married to his wife's second husband's fourth partner in matrimony."—Chicago Record-Herald.

ONLY ONE CRITICALLY ILL

Other St. Paul Women Recover From Gas Poisoning.

St. Paul, Nov. 27.—Of the four women found asphyxiated in the house at 490 Rice street Mrs. Annie Mead is still in a critical condition. She is unconscious at St. Joseph's hospital, although there has been a slight improvement. Mrs. L. Johnson, who conducts the apartments, is also at the hospital, but she is reported to be progressing nicely. Miss Minnie Oliver and Mrs. Kate Robinette are under the care of a physician at the house and they are said to be out of danger.

The cause of the accident is said to have been a defect in the main gas connection in the street. The building was erected a year ago and it is thought the defective connection was due to the extremely cold weather when the work was done.

The main was exposed and it is said that a leak was found close to where the new connection was made. The gas is supposed to have got into the house through the opening made for the connection.

While workmen were excavating for the source of the trouble they were overcome by the gas which filled the ditch, but were quickly revived.

ALLEGED CUSTOMS FRAUDS

New Series Brought to Light in New York.

New York, Nov. 27.—A new series of alleged customs frauds was brought to light here with the arrest of Thomas C. Giddings, a customs weigher, on an indictment charging him with conspiracy to defraud the government in connection with importation of figs in 1906.

According to the federal prosecutors Giddings underweighed two shipments of figs consigned to local importers, recording the weight of the first shipment at 30,000 pounds instead of 40,600, and defrauding the government of the duty on 8,700 pounds in the second shipment.

The indictment against Giddings, it is intimated, is the first of a series which the government hopes to obtain from the grand jury now in session as a result of following up Collector Loeb's investigations and dismissals.

The Distinguished Man.

It was the second time they had dined at the cafe, which was somewhat inauspicious with its vaulted ceiling.

ing and its German decorations of plaques and steins. A man kept walking back and forth through the room. He did this several times before he finally disappeared.

"It seems to me," she whispered, "that I have seen that distinguished man before somewhere. Haven't I?" "Yes," said he. "You saw him here the night you came to dine with me. He's the head waiter."—New York Press.

White Lace Peacocks.

White peacocks are rarer and more costly than those of the ordinary kind. Some of these birds are raised in this country, but the greater number are imported from Europe. White peacocks are like ordinary peacocks in their general characteristics, but instead of having plumage of the familiar blue and green and black their plumage is white. Sometimes the "eyes" in the white peacock's tail are of a creamy tint, giving to the tail when spread the effect of lace, from which such birds are called white lace peacocks.

The farmer is the man to be court-
ed these days, with wheat near the
dollar mark, flax at better than \$1.70
and butter and eggs out of sight.

Several politicians from as many
parts of the state are flirting with
the republican nomination for govern-
or. The preliminary skirmish al-
ways comes before the real fighting.

John Hoblit, formerly publisher of
the Little Falls Democrat, has en-
gaged in the newspaper business at
Silverton, Oregon, having bought a
half interest in the Appeal, of that
city.

The North Dakota banks are roll-
ing in wealth these days, which ac-
cording to the Grand Forks Herald
belongs to the farmers of the state.
When the farmers are well fixed fi-
nancially prosperity is abroad in the
land.

The Wells Fargo Express Co. have
just cut a 300 per cent melon accord-
ing to newspaper report, and the
stockholders are happy—or should be.
The general public contributes and
make this near-Christmas present
possible.

Pillager's new paper, The Herald,
is advocating female suffrage and
says "Let women vote and hold office
the same as men." Now if the ladies
of Pillager do not get out and rustle
business for the Herald we will miss
our guess.

The South Dakota game laws are
being attacked on the ground of un-
constitutionality, the claim being set
up that it is unlawful to charge a
resident hunter one price and a non-
resident hunter another for the same
privilege as "all men are born free
and equal."

The Aitkin Republican wonders
why the editor of the Walker Pioneer
wants a yoke of oxen. There are
several things a newspaper man
could use oxen for, among which
would be to haul the silver dollars
he takes in on subscription to the
bank for deposit. Oxen are slow but
sure.

Minnesota is well advertised as
to her products, and the latest to re-
ceive recognition is the excellent
water for which we are noted. In
the future the dining cars will be
supplied by drinking water from the
springs near Detroit, and special re-
frigerator cars will carry the supply
to the different distributing points.

Prices have been fixed by the state
board of control on binder twine to
be sold next year to the farmers at
one-fourth cent per pound below
last year's prices on the three best
grades, the standard and sisal twine
prices remaining the same. These
low prices are owing to very favor-
able fiber contracts that have been
made.

The Age is rejoicing over the fine
new depot that the Cuyuna railroad
is to give to Aitkin. It will be in
the new style of station architecture
with tower and broad roof. The
building will be at the head of Fourth
street in that city and will be on the
town side of all tracks so that it may
be approached without crossing
them.

The Long Prairie Leader has dis-

ciated by the public and are returning
to the original once-a-week. The
Leader is one of the influential pub-
lications of Central Minnesota. The

oldest papers in this section of the
state, also announces that on the
first issue in December the Tuesday
and Friday editions of the Weekly
Transcript will be consolidated in-
to a once-a-week edition. Newspa-
per consolidation is in the air, and
the idea seems to prevail that one
or two good newspapers are worth
more to a community than half a
dozen poor ones—and even publishers
of twice-a-week editions are seeing
the advisability of concentrating
their efforts into one strong weekly
edition.

North Dakota is a prohibition
state but that has not worked to the
disadvantage of those who wished to
indulge their taste for liquor. In
the past the liquor concerns of the
country could ship a consignment of
beer or booze to any fictitious ad-
dress and the wet goods would be
held by the station agent, who usu-
ally handles the express, until some
one appeared who wanted the con-
signment bad enough to pay the ex-
press charges and the original cost.
Thus the liquor houses were able to
do a prosperous C. O. D. business
right in the heart of what was sup-
posed to be the "dry territory." This
business ceases, however, Janu-
ary 1st, as a law goes into effect re-
quiring that the packages be marked
with their exact contents as to quan-
tity as well as what the package con-
tains, and must be addressed to an
individual who actually exists. Thus
the North Dakota sports who have
all these years been fooling their pro-
hibition friends are at last at their
ropes end. And all this when that
state is facing a water famine.

OTFRIED PETERSON UNDER ARREST

arged With the Murder of James Gallagher at Cuyuna Wed nesday night

QUEST HELD THIS FORENOON

Post Mortem Held on Remains of Gallagher by Dr. Sewall of Deerwood

Deputy Sheriff Claus Theorin re- rned on the midnight train last ght from Cuyuna, where he had en investigating the killing of e Gallagher, who was killed in fight there Wednesday night. Mr. teorin states that it was very hard find anyone who knew, or at least ould own to knowing anything out the affair. He finally got hold a young lad named Elmer Swan- n who admitted seeing the blow ruck which knocked Gallagher out d on the strength of his statement d corroboratory evidence he, assisted Constable Frank Buchanan, ar- sted Gottfried Peterson, a miner, and ough him to Brainerd last night d locked him up. Peterson is own to have been in the fight with allagher and will be held pend- e result of the inquest.

Deputy Sheriff Theorin, before aving Deerwood last night, on his ay in from Cuyuna, empaneled a oner's jury composed of the fol- wing men and the inquest was held e Deerwood this forenoon: C. J. athvon, R. R. Graham, O. E. Culver, J. Carlson, John Oberg and Robert chibald. Deputy Coroner Ralph ooney conducted the inquest, as- sted by County Attorney Fleming. ut few particulars of the fight have eached Brainerd as yet, but it is said o have started in the Olds hotel at uyuna and ended in the streets of e village. For several weeks there as been bad blood between the men orking on the railroad construction d the men of the Kennedy mine nd this is said to have been what ad to the fight. Gallagher, who ad been working for Dale & Bum- arten for over two months had not rank a drop since coming onto the b, until that night, it is said, but ot loaded and was making threats nd wanting to fight in the hotel and e and Peterson were both ordered ut by the landlord. They went and ntinued the fight in the streets. allagher is said to reside in Minne- polis.

It is said that after the fight Pet- erson went to the hotel and told the ndlord that they had better bring allagher into the house, that he as drunk and would freeze to death ut there. When he was brought in e landlord thought he was not sim- ply drunk and telephoned to Deer- wood to Dr. R. J. Sewall, who drove ut from Deerwood and found the an dead. Dr. Sewall at once noti- ed the coroner.

Peterson was arraigned in the muncipal court here this forenoon harged with murder and the case ntinued until Wednesday, he being eturned to jail without bail.

Judge Fleming returned from Deer- wood today noon, having left there as soon as the evidence was in at the oroner's inquest, and before the ver- dict had been written. He stated hat the evidence shows that the men ad been in a fight in the hotel earli- er in the evening and had been se- arated and had got together outside ater. As to whether the blow had aused death or whether death was aused by his striking his head when e fell was a matter upon which Drs. Sewall and Reid, who performed the autopsy disagreed.

CONDUIT CREW HERE

A Crew of Men Arrived in the City Yesterday to Put in Conduits for Telephone Co.

A foreman and crew of men ar- rived here yesterday to put in con- duits for underground telephone wires. The material is here also, but as the plans for the under- ground portion of the system have not arrived yet it is not known ex- actly what amount of wire will be put underground, or where. The lo- cal plant officials recommend that all wires crossing the Northern Pa- cific tracks be put in conduits un- derground, and it is their belief that this is to be done. The plans will be here Monday and the work will be pushed at once. The work of setting poles is practically completed and the crew of laborers who have been working on the pole setting will be turned over to the underground crew and will do the excavating for that work. The stringing of cable has been de- layed by the fact that the "messen- ger," as the heavy twisted cable which carries the telephone cable is called, has not arrived yet. The foremen are impatient as they wish to utilize all the warm weather there is.

MUSIC AND DRAMA

"Graustark" Coming Soon

"Graustark," a dramatization of Geo. Barr McCutcheon's novel by Geo. D. Baker, comes to the opera house soon direct from conquests of New York, Boston, Chicago, Philadelphia and Pittsburg. No play has so elec- trified the theatrical world in a de- cade, and much interest is shown in the coming presentation. The book has been widely read and many are familiar with the captivating story. It deals with the adventures of a dar- ing American and a "Princess," and unfolds a narrative of "A Love Be- hind a Throne." The play is in five acts and mounted with a lavish equipment of scenic effects and os- tumes, and interpreted by a cast of players that are seldom seen away from the Broadway theatres.

FAREWELL SERVICES SUNDAY

Church Expects to Occupy New \$7000 Edifice Now Building Early Next Year

The Longyear Exploration Com- pany last night closed the deal for the church and residence owned by the Norwegian Lutheran church, lo- cated on South Seventh street, ad- joining the spur track between Laur- el and Maple streets. The church people, who have occupied the church over twenty years, are erecting a \$7000 church on the same street about a block farther south. They will hold their farewell services in the church Sunday night, and ex- pect to occupy their new church about the first of the year.

The Longyear Exploration Co., which has been doing an extensive business in drilling for iron for var- ious parties in this county for some years back, has not yet announced what it will do with the property, although it is reported that they will offer the buildings for sale, to be moved off the lots. The lots, being adjoining the spur track, are espe- cially valuable as the places for houses for storing coal are very scarce with track frontage. The consideration was \$3500.

ISTHMUS TRAFFIC GROWS

Value of Merchandise Transported Is Increasing.

Washington, Nov. 27.—The great volume of American merchandise now being carried by rail across the Isth- mus of Panama and the Isthmus of Tehauntepec is shown by the fact that for the fiscal year 1909 the goods transported amounted in value to more than \$60,000,000. The total for this calendar year probably will reach \$75,000,000. These are the salient features of a statement issued on the subject by the bureau of statistics.

The Tehauntepec railway, which crosses the isthmus at Tehauntepec in the southern part of Mexico, carry- ing the freights received from the steamship lines plying between the great ports of the United States and its eastern and western termini, car- ried in the first year of its operation —1907—between \$25,000,000 and \$30,000,000 worth of merchandise; in 1908, nearly \$38,000,000 worth, and in the present year its business in freight will exceed \$50,000,000.

The Panama railroad, engaged chief- ly in work and traffic growing out of the construction of the Panama canal, carried in 1907 about \$12,000,000 worth of merchandise originating in the United States and bound either for other parts of this country or for for- eign countries; in 1909 will show about the same total.

Neuralgia In the Face

Long standing case completely cured by DR. A. W. CHASE'S NERVE PILLS

Headache and Neuralgia. What hosts of people seek for cure of these ailments. And in vain. Because they are misled by going after medicines which only relieve.

Dr. A. W. Chase's Nerve Pills are not a relief for headaches and neuralgia, but they are a thorough cure in the only way these troubles can ever be really cured—by restoring the nervous system.

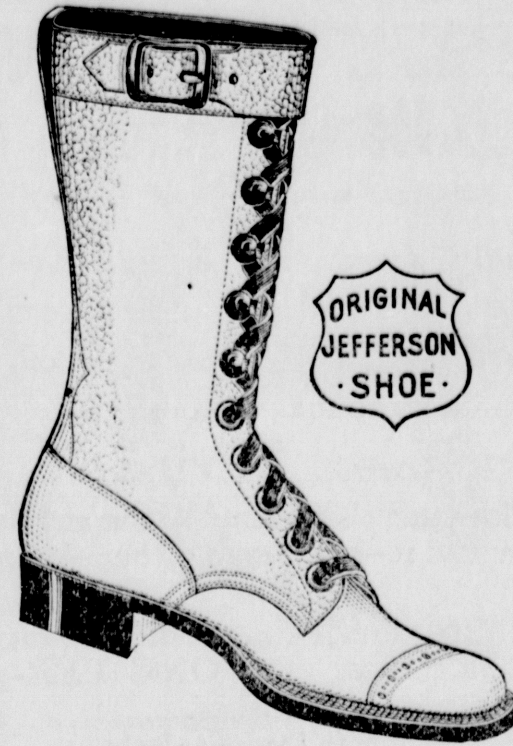

Mrs. E. Bridgen, 312 East Adams St., Syracuse, N. Y., states: "Until I used Dr. A. W. Chase's Nerve Pills I was never free from attacks of distressing neuralgia in cold months and suffered from a draft even in summer time. Other remedies relieved only, but these Nerve Pills stopped the attacks, due I believe to their building up power."

Neuralgia and nervous headaches are always an indication of exhausted nerves. Make the cure thorough by using Dr. A. W. Chase's Nerve Pills, 50 cts. at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every box.

WILL BE HELD IN NEW YORK

Memorial Service in Honor of Governor John A. Johnson.

New York, Nov. 27.—The largest memorial service held in New York in years will be conducted at the Broadway tabernacle on Sunday afternoon in honor of the late Governor John A. Johnson of Minnesota under the auspices of the American-Scandinavian society. Invitations have been accepted by many national and state officials to be present. President Taft has written an eulogistic letter of the late Governor Johnson, which will be read at the Sunday afternoon services.

Hon. J. Edward Swanstrom, former borough president of Brooklyn, will preside. Among the speakers will be Governor Charles E. Hughes of New York, Charles A. Towne, former United States senator from Minnesota and ex-congressman from New York; Rev. Dr. Mauritz Stolpe of the Swedish Gustavus Adolphus church; Rev. Dr. Frederick Lynch, pastor Pilgrim Congregational church; Rev. H. W. Eklund, pastor Swedish Methodist Lexington church.

The Swedish singing society, Lyran, of New York, will furnish the vocal music, while Professor Walter C. Gale will give an organ recital.

The late Governor Johnson was well known in New York, where he has many admirers.

same plaintiffs and notice was given for a hearing on the motion on Dec. 13 next. In this suit the plaintiffs charge that over \$300,000 from the 1906 and 1907 pools are being held and expended improperly to pool the 1909 crop and they ask for an accounting.

NO BACKACHE OR KIDNEY TROUBLE

Distress From Kidney Disorders or Weak Bladder Vanishes Before you Realize it

THE KIDNEYS WILL ACT FINE

Just a Few Doses Will Regulate Your Out-of-Order Kidneys and Urinary System

No man or woman here whose kidneys are out-of-order, or who suffers from backache or bladder misery can afford to leave Pape's Diuretic untried.

After taking several doses, all pains in the back, sides or loins, rheumatism twinges, inflamed or swollen eyelids, dizziness, tired or worn-out feeling and other symptoms of clogged or sluggish kidneys simply vanish.

Uncontrollable urination (especially at night), smarting, discolored water and all bladder misery ends.

The moment you suspect the slightest kidney or bladder disorder, or feel rheumatism pains, don't continue to be miserable or worried, but get a fifty-cent treatment of Pape's Diuretic from your druggist and start taking as directed, with the knowledge that there is no other medicine, at any price, made anywhere else in the world, which is so harmless or will effect so thorough and prompt a cure.

This unusual preparation goes direct to the cause of trouble, distributing its cleansing, healing and vitalizing influence directly upon the organs and glands affected and completes the cure before you realize it.

A few days' treatment of Pape's Diuretic means clean, healthy, active kidneys, bladder and urinary organs.

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape, Thompson & Pape, of Cincinnati, is a large and responsible medicine concern, thoroughly worthy of your confidence.

Accept only Pape's Diuretic—fifty-cent treatment—from any drug store—anywhere in the world.

PRESIDENT SLOW WITH MESSAGE

Taft Has Not Begun to Write the Document.

WOULD ARRIVE TOO LATE

Newspapers in Remote Sections of the Country Will Not Be Able to Get Copies by Mail and Must Rely Upon Wire Service—Chief Executive Still Engaged in Gathering Material for Message.

Washington, Nov. 27.—It is probable that with the exception of the most important newspapers in the large cities, the press of the country will not be able to present the full text of President Taft's first annual message to congress on the day of its delivery or the following day. In recent years most newspapers were able to have the message in type days before its submission to congress and by a system of telegraphic “release” to have editions containing the message on the street within a few minutes after its reading was begun in the senate or the house. Conditions are against that this year.

Although congress will reassemble on Dec. 6, President Taft has not commenced actual preparation of the message which is expected to be a state paper of unusual importance. It was explained that he was still engaged in gathering material and had not entered on the labor of writing. It was added that the president would call in a stenographer within a day or so and that he would make short work of the task of whipping the message into the shape in which it will be laid before the congress.

Strain on Telegraph Service.

Even with the best prospect, however, copies of the message cannot be obtained in time to mail to remote points in the United States, and the chances are that a good many American newspapers will have to receive this document of great length by telegraph, a process which will entail a slaughter of the text in some cases and a tremendous strain on the telegraphic service of the country in others where newspapers too far away to receive the message by mail will order its transmission in full by wire.

Up to President McKinley's time all presidential communications to congress were guarded by the White House with great secrecy, partly in the idea that what the president had to say if known in advance, would be utilized for stock manipulation, and partly because of the tradition that congress was entitled to have the message in its possession before it was given to the public.

It was not until President Roosevelt's time that the practice was established of giving a sufficient number of printed copies to press associations in time to reach through the mails, before delivery to congress, all the newspapers in the United States which were furnished with news by these associations.

OFFICER KILLS NEIGHBOR

Illinois Constable Narrowly Escapes Being Lynched.

Quincy, Ill., Nov. 27.—Constable James H. Dobbs narrowly escaped lynching at Columbus after he had shot and killed William Thompson, his neighbor.

The killing was the result of a quarrel of the children of the men. Thompson told Dobbs that their children could not get along peaceably and that he preferred that they should not play together.

Dobbs knocked Thompson down and then shot him to death. When word was brought here that a mob was forming to lynch Dobbs a number of officers hurried to Columbus in an automobile and brought Dobbs to this city, where he was lodged in jail.

DULUTH MAN ENDS HIS LIFE

Despondent Because His Sweetheart Had Left Him.

Duluth, Nov. 27.—Despondent because his sweetheart, Miss Marie Burns, refused to have anything more to do with him Louis Beaudette, a machine operator in the employ of the Northern Shoe company, shot himself through the heart with a bullet from a revolver. The young woman has left the city.

It is believed that Beaudette quarreled with his sweetheart a few days ago and he had been brooding over the incident ever since.

Fire Was in His Own Home.

Cass Lake, Minn., Nov. 27.—Fire of unknown origin destroyed the residence of Town Marshal Brewster. He was on his beat and noticed the fire. Rushing home he broke in the door and aroused his wife and children, who just had time to get out. Nothing was saved.

Baseball Club Sold.

Philadelphia, Nov. 27.—The Philadelphia National league baseball club has been sold to a syndicate, of which Horace S. Fogel of this city is the head. The price paid by the new owners is said to have been \$350,000.

PRICES OF STOCKS RISE

Apprehension Over Standard Oil Decision Disappears.

New York, Nov. 27.—The opportunity for contemplation afforded by Thanksgiving holiday seemed to have resulted in an almost entire disappearance of apprehension over the Standard Oil decision which has been an unsettling influence in the stock market throughout the present week. Prices of Americans had been lifted smartly in the London market in the interval and New York accepted the altered appraisement at the outset and added something to the gains in the course of the day's transactions. The volume of those transactions was not large and the speculative tone was somewhat subdued yet, as the aftermath of the anxieties of the earlier part of the week.

The abatement of uneasiness over the effects of the Standard Oil decision was owing to a large extent to the revival of credence in the project to consolidate the leading copper industries.
